CLAD-LINE CL3 Framing System

Description:

CL3 is CLAD-LINE's subframe system for mechanically secret fixed applications, suitable for use with Rockpanel, high-pressure laminate (HPL), ceramic, thin stone and fibre cement.

CLAD-LINE's CL3 panel hangers which are secured to the rear face of the cladding panel simply 'hook-on' to the horizontal rails. The CL3 horizontal rails can be fixed back to the CL1, CL4 or CLF2F systems.

CLAD-LINE's range of support brackets comes pre-fitted with a thermal isolation pad. This reduces installation time on site as well as improving the thermal performance of the bracket.

Clad-Line Framing Solutions
Unit 4 Primary Point,
Progress Drive,
Cannock,
Staffordshire,
WS11 0JF

Features and Benefits:

- Lightweight
- Durable
- Pre-fitted Iso Pad
- Minimal contact between hanger and panel
